PROCEDURES: HOW TO ADD & EDIT PROCEDURES USING F8

TO ADD NEW PROCEDURES:

Select Date

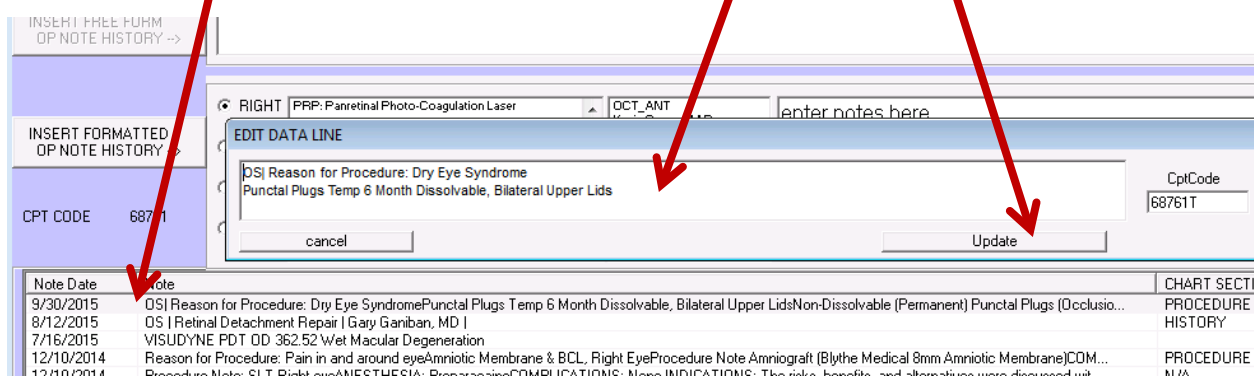

Select Eye, Procedure (you can edit this line if needed,) Doctor, and enter Note

TO EDIT NOTES:

Double click on a procedure on the bottom section. Make edits and select Update.

If you need to change a date, you will need to delete the procedure and enter a new one. (Open the original first so you can copy and paste the text. *You can always use Ctrl+C to copy and CTRL+V to paste.*)

PROCEDURES: HOW TO ADD & EDIT PROCEDURES USING F8

PLEASE NOTE:

You will need an op note template when manually adding a procedure.

Please use the document titled “*Doctor Name* Procedure Note Templates” located in the clinical share here: [\\EYE-DC01\Clinical_Share\CORRECTING OP NOTES](#). You will need to copy and paste the document and REMEMBER TO FILL IN THE SECTIONS WITH THE RED **XXs**.
